with *you* in mind.

Functional hardware made with *you* in mind.

At Hardware Resources, we're more than just a brand; we're your partner. Our journey began with a vision to redefine cabinet hardware for the US market. Our commitment to quality, innovation that matters, and durability has shaped us into the brand we are today. When you see HR Max you can trust that our drawer slides and cabinet hinges are designed for maximum performance in the US cabinet industry.

Built to Last with Unwavering Quality Commitment.

HR Max means quality. We rigorously quality test our cabinet hardware in-house and collaborate with trusted third-party experts to ensure each piece meets our high standards.

With HR Max, you choose products built to last a lifetime, backed by our lifetime warranty. The durability of HR Max products has been proven with decades of excellent performance in the field.

Innovation That Matters to You.

HR Max products are engineered with features that make installing and using the products easier. Synchronized undermount slides reduce side-to-side racking without the need for complicated and expensive add-ons. Lever-top hinges are designed to be easier to remove without using tools. Ball bearing slides feature a cage-lock forward that makes it easier to take apart and reassemble drawer slides. HR Max innovations are designed with you in mind.

Quality. Reliability. Innovation.

Meeting and Exceeding ANSI/BHMA Testing Standards.

HR Max is not just about design and durability; we're also about adhering to industry-leading standards. Our products meet and/or exceed ANSI/BHMA (American National Standards Institute/Builders Hardware Manufacturers Association) testing standards, ensuring that you get hardware that's designed to last.

We ensure our products perform to standards with continuous cycle testing and tight manufacturing controls. You can rest assured that HR Max products will perform for years to come.
