HARDWARE RESOURCES® INTRODUCES POWERED VANITY DRAWER

Easily upgrade a vanity drawer into a hair styling workstation

(BOSSIER CITY, LOUISIANA – June 2, 2022) -- Hardware Resources has introduced a new, patent-pending Powered Vanity Drawer to its organizer line. The Powered Vanity Drawer converts a standard bath vanity drawer into a hair styling workstation. No electrician required! Simply plug into an outlet (GFCI recommended) behind the vanity, so installation is fast and easy. Designed with safety in mind, the Powered Vanity Drawer automatically cuts power to appliances when the drawer is closed. It is an ingenious way to add glamour and functionality to any bathroom suite.

The Powered Vanity Drawer features two stainless steel canisters that hold appliances, and an additional caddy on the top keeps all grooming items together. It comes fully assembled with slides and power cord management hardware attached and ready for installation. The Powered Vanity Drawer is designed to fit a 15” wide vanity drawer opening and is an easy upgrade for the NorthPoint Cabinetry® three drawer vanity base cabinet.

Learn more about the Powered Vanity Drawer and the full line of organizers at HardwareResources.com.
